Wilson Audio		A rare opportunity	
A Rare opportunity to own Wilson Audio MAXX series 2 speakers at substantial savings.			
The current price for MAXX2 is \$48,900 a pair. We have a pair that we are selling for one of our customers. They are dark Titanium with Titano (medium grey) grills and black hardware. The price for this pair is \$34,900 . The price includes shipping, installation and voicing anywhere in our region and full warranty through us. As an alternative you could consider our demo Titan Red MAXX2 (Black grills and hardware) for the same price.			
Language can scarcely suggest the auditory experience awaiting the listener via the Series 2 MAXX.			
Suffice it to say that MAXX will connect you to the music in a way few other loudspeakers can manage.			
In fact, short of Alexandria, we believe no other current loudspeaker is as sonically truthful and eloquent.
