Lifestyle Audio Event

This Thursday **December 10, from 4-8PM** we will present what we consider to be Lifestyle products.

What do we mean by Lifestyle? We all have our style of life but generally we all want convenience, no hassle, ease of use of the technology around us, and good sound. That is what we aim to provide in our area of excellence, music in your home in one location or everywhere.

Our Lifestyle Event Thursday night will feature a representative from the French company Devialet for you to talk with. Devialet is perhaps at the top in terms of elegance and performance for this type of product. Other offerings span the range from the very affordable Sonos, to the Naim Mu-So, and Devialet at the other end. Beyond that, we move to really sophisticated and unique systems designed by us exactly for you.

Elac Speakers (\$249/pair & up)

The new Debut series of speakers from the German company Elac are a must hear! The quality of sound achieved for the price is an outstanding value. The debut series includes various types of speakers so you can use them in a stereo arrangement or 5.1 surround sound for movies. Debut is available for audition now!

Bluesound Povernode 2 (\$799)

Povernode 2 from Bluesound is an all in one system that most pairs of speakers can be hooked up to. The internal amplification was designed by NAD, a distinguished audio company known for designing over-achieving amplification at affordable prices. Pair with Elac for an amazingly affordable, great sounding stereo!

SONOS (\$199 & up)

Sonos products are easy to use and bring music to your home in any room, or every room. Streaming is the future of digital audio and Sonos has created cool, sleek speakers and streaming components that are intuitive to setup and control through one simple app on your digital device.

BLUESOUND (\$299 & up)

Bluesound works much the same way as Sonos but is designed and built with higher performance in mind. With Bluesound's Vault 2 product you can easily digitize your entire CD collection and stream your music to any Bluesound speaker in your home! Control all of this with one easy to use app.

NAIM MU-SO (\$1,499 SALE! \$1,299)

Naim, an English audio company with a rich history, now has their first complete wireless music system. Finely tuned by their engineers, its powerful audio brain delivers the most exceptional quality in sound, commanding 450 watts of power through six custom-designed speakers to create a truly musical experience.

DEVIALET PHANTOM (\$1,990)

Phantom was invented and designed in France by Devialet. Phantom is a wireless speaker like no other with its svelte form factor and innovative speaker design. Built with fidelity in mind, Phantom is a performer. It really must be seen and heard! We invite you to stop by our showroom for a demonstration any time.

HEADPHONES (\$250 & up)

Into headphones? We are the best source for great, quality headphones and headphones amplifiers in Omaha. Stop by our showroom and relax in the "headphone nook," trying out all of the different headphones to find the best pair for you. We have headphones from Sony, NAD, PSB, Audeze, and McIntosh, starting at \$250.

QUESTYLE QP1 (\$899)

For music lovers on the go the QP1 from Questyle is one of the highest performance portable players available. The build quality is impeccable and the form factor beautiful. Phones lack quality amplification, restricting musical sound, and often have small amounts of memory. The QP1 has expandable memory up to 288GB and 10 hours of battery life.

Working With Us

We make purchasing and ownership as easy as possible. You can come in experience a product or system, get advice from one of our team. We have products, experience, and knowledge not found anywhere else in Omaha. You can call us and make a purchase over the phone. We can ship the product to you at no charge, whether that is across town or across state. We will take it back if it doesn't fit your needs or expectations. We will take it in trade later for something more ambitious, something that fits your growing, developing expectations.

We'll make these products work for you in your home. We have been doing this for 45 years with a total of nearly 150 years of combined experience. We know how things work and we can make them work for you.
